SAFETY PLAN

for the Château de Prangins

of 11 May 2020 (last updated 2 November 2020)

BASIS

The emergency situation came to an end on 19 June 2020, and on 22 June 2020, the Federal Council put the 'Covid-19 Ordinance Special Situation' into force. Due to the sharp rise in coronavirus infections, the Federal Council has ordered further measures and amended the Ordinance accordingly. The Swiss National Museum (SNM) has drafted the present individual safety plan for the **Château de Prangins (CDP)** on this basis and on that of the general plan of the Swiss Museums Association (SMA), which was updated as well as on the safety plan of the National Museum Zurich.

BASIC RULES AND REQUIREMENTS

The safety plan for the CDP is designed to ensure compliance with the following requirements.

1. **Hand hygiene:** All individuals on CDP premises must wash their hands regularly
2. **Social distancing and mandatory use of face masks:** Staff and other individuals must adhere to the distance rule. It is compulsory to wear a mask in all rooms, on tours and events.
3. **Cleaning:** All surfaces and objects must be cleaned appropriately after use, particularly if they have been touched by multiple people
4. **Individuals at increased risk:** Suitable protection must be in place for individuals at increased risk
5. **Individuals suffering from COVID-19 at work:** Anyone who shows signs of illness on CDP premises must be sent home and told to (self-) isolate in accordance with FOPH guidance
6. **Specific circumstances in the workplace:** Any specific aspects of particular roles must be taken into account, and suitable precautions implemented to ensure staff safety

7. **Provision of information:** Staff and other relevant individuals must be kept fully informed of the requirements and measures in place
8. **Management:** Management must implement the provisions of this plan in order to ensure that protective measures are applied effectively and appropriately

The present document sets out a range of measures designed to meet each of these requirements. The Museum Operations Manager is responsible for the implementation of this safety plan and is the contact person for the responsible authorities.
